## **DETAILED ACTION**

This action is in response to Request for Continued Examination filed July 26, 2004 and Amendment filed May 26, 2004. Claim 4 has been amended as requested by the applicant.

### ***Response to Arguments***

Applicant's arguments, see Amendment, filed May 26, 2004, with respect to claim 4 have been fully considered and are persuasive. The rejection of claim 4 has been withdrawn.

### ***Allowable Subject Matter***

Claim 4 is allowed.

The following is an examiner's statement of reasons for allowance:

The prior art of record fails to teach or suggest a polarizer comprising two protective films on opposite surfaces of a polyvinyl alcohol polarizing element wherein the moisture content of the polyvinyl alcohol polarizing element is not higher than 15 % by weight and the moisture permeability of the protective films is in the range of 5-300 (g/m<sup>2</sup>\*24h) at 40°C x 90% R.H. and the protective films are single layer films made of a resin.

Art Unit: 2872

Takuzo (JP 59-159109) teaches the invention as claimed but lacks the protective films being single layer films.

Ishii (US 6,726,995) teaches the invention as claimed but lacks reference to the protective film being single layer films.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
